

# Uncle Kracker, Please Come Home

It must have been about a 100 years  
At least a hundred years  
I wish you would just come back  
Just come back home

The day we met feels like 100 years ago  
And I'm still waiting with my hand right by the telephone  
Yeah maybe where you are you cannot make that call  
Or you can't find the pen I know it's not your fault

## CHORUS

My friends think I'm insane  
'Cause I've turned old and gray  
And I'm still waiting and I cannot be alone  
Please come home (please come home)

I watch the clock hands tick my hours turn to days  
And I can't fall asleep 'cause I don't want to miss that ring  
I know that this year your car will park outside  
But I can't put my arms around the girl who took my life

## REPEAT CHORUS

It's been so long  
It's been about 100 years  
And a million dreams since the last time  
I've seen your pretty face I would do whatever it takes  
I would wait another 100 years  
And if that didn't work  
Maybe I'll try and see what forever feels like  
But until then and I know you hear me  
And whatever your doing wherever you are please come home

That day we met feels like 100 years ago  
And I'm still waiting for you  
Baby baby won't you please come home  
Please come home  
Won't you please come home  
Please come home  
Won't you please come home (Please come home)
