

# Undead, Put Your Clothes Back On

(Steele)

You said that if I gave you the chance  
You'd change my mind about romance  
But even though we kissed all night  
Nothing seemed to come out right  
So put your clothes back on  
Don't you think you should be gone  
Put your clothes back on  
This is turning out all wrong  
So put your clothes back on  
You said you'd make me see  
That true love was even meant for me  
But as you started getting romantic  
I just started getting more frantic  
So put your clothes back on  
Don't you think you should be gone  
So put your clothes back on  
This is turning out all wrong  
So put your clothes back on  
No!  
My social life's a total mess  
I don't know why I bother to get dressed  
After all these years of living alone  
Am I just another middle class clone  
Put your clothes back on  
You said you'd make me believe that silly stuff  
That I don't really have to act so tough  
But now the morning light is here  
And I just want you to disappear  
So put your clothes back on  
Don't you think you should be gone  
So put your clothes back on  
This is turning out all wrong  
So put your clothes back on  
Don't you think you should be gone  
So put your clothes back on  
This is turning out all wrong  
So put your clothes back on  
Don't you think you should be gone  
So put your clothes back on  
This is turning out all wrong  
So put your clothes back on  
Don't you think you should be gone
