

# Undercroft, Sabbatical Potion

The evil particles  
Of the singular night  
Surround the innocent victims  
Summoned to drink from the devil's chalice  
Which will drive them  
To their being's most inhuman condition  
It's the sabbatical potion  
Created by the witches for the black gathering  
It's the sabbatical potion  
The infernal sacrament of the beginners  
The powerful spell dominates  
All of the congregation  
Morbidly penetrates in to the minds  
Creating an endless mirage  
Madness has begun  
Some practice sodomy  
While the golden calf  
Rapes the virgin madness  
Sabbatical potion  
Infernal insanity  
The out rageous orgies  
Between man and animal  
Make way  
For pain and sadism
