

Union 13, To Understand

There's many things to understand
More than pebbles in the sand
More than dirt on our hands
When I look forward I can start,
I can start to do my part (I can try to understand)

(Chorus)
Looking, but I haven't found it
If I get out now I be stranded
No one cares, I feel shorthanded
So why would you say I wasn't down
To turn all our lives around (to understand)

This dream makes no sense to me at all
Dreams are dreams but life is law
Random thoughts carry us all
So have you ever felt this way
Dead asleep no need to pray
No, no, no

(Repeat chorus)
