

Union Underground, Drivel

Load up all your friends man I'm trippin' like a f**khead
Bore us all again with your drivel kill the dead
Once again man your drivel killed the dead
Breathe in breathe out little f**k

Feel so down
So, that's alright
Seething so like a motherf**k

Come on over brother man we'll burn try my new juice
Maybe bring another I'll break out the new noose
There's something I missed
It's not on the list
Once again man your drivel killed the *** dead

Never learn I'm so in love with this

Feel so down
God where's your head
So very high

It gets you down
So, that's alright
Say that you never wanna get high man
Never learn I'm so in love with this There's nothin' better, give it a try man
