

# United Support Of Artists For Africa, Just A Little Closer

There's a little distance  
A shadow of resistance  
When I begin to dim the lights  
Why the hesitation  
Any reservations  
You have will be erased tonight

Just let it take us where it wants to  
Only a fool puts limitations on love

You can be evasive  
But I can be persuasive  
And I won't stop until I feel you move

Just a little closer  
Just a little bit  
Don't be scared  
Don't be afraid to get  
Just a little closer  
And you'll see  
Love is gonna be  
Just a little closer

Now that's a little better  
A little more together  
I feel you starting to relax  
We're gonna have a fine time  
Boy, if you're the shy kind  
I'll ask the stars to turn their back

Just let it take us where it wants to  
Only a fool puts limitations on love

Tell me that you're staying  
And get around to saying  
That you think it's time for me to move

Just a little closer  
Just a little bit  
Don't be scared  
Don't be afraid to get  
Just a little closer  
And you'll see  
Love is gonna be  
Just a little closer

Just a little closer  
Just a little bit  
Don't be scared  
Don't be afraid to get  
Just a little closer  
And you'll see  
Love is gonna be  
Just a little closer.
