

Universal Hall Pass, Sally's Song

Come to me Sally
Cantar para mi a little song
Inti of the Incas
On a loop

Ah sing to me sally
Oh so little known to some
But not to you
In the middle of night there's a luminous sun
It's a little too bright for us to sleep and dream
And dream
It's a little too bright when the luminous sun in the middle of night is shining down

Sally when you wake up
Have all your horses in a row
Inti of the Incas
We have been listening for you

We have passed the time playing shuffle with the cards
When you sing your song
Then we'll think about you
Come now Sally Sing!
Muy poco conocido a algunos
Pero no a ti pero no a ti y tan
It's a little too bright when the luminous sun in the middle of night is shining down

Sing to her on the edge of sleep sally is now our chance to freedom
Sing to her on the edge of sleep sally is now our chance to freedom
Sing to her on the edge of sleep sally is now our chance to freedom

We will think of power as a win - win game
(Brave little sally fall asleep power is a gift so dont be fearful)
