APPLE COMPUTER

(Stan Kelly-Bootes)

I gave my love an Apple that had no core  
I gave my love a building that had no floor  
I wrote my love a program that had no end  
I gave my love an upgrade with no cry-en.  
How can there be an Apple that has no core?  
How can there be a building that has no floor?  
How can there be a program that has no end?  
How can there be an upgrade with no cry-en?  
An Apple MOS memory don't use no core  
A building that's perfect, it has no flaw  
A program with GOTOS, it has no end  
I lied about the upgrade with no cry-en.
