APPLE COMPUTER

(Stan Kelly-Bootes)

I gave my love an Apple that had no core

I gave my love a building that had no floor

I wrote my love a program that had no end

I gave my love an upgrade with no cry-en.

How can there be an Apple that has no core?

How can there be a building that has no floor?

How can there be a program that has no end?

How can there be an upgrade with no cry-en?

An Apple MOS memory don't use no core

A building that's perfect, it has no flaw

A program with GOTOs, it has no end

I lied about the upgrade with no cry-en.
