

# Unleashed, Never Ending Hate

Mindless people without a face  
Cannot stand our human race  
So they call us left behind  
We laugh with pride, stand and fight

Never ending hate

Politicians in the lead  
Empty brains they will feed  
Never trust'em not a sound  
Slay'em down to the ground

Never ending hate

Try to make us compromise  
Listen fast simple minds!  
No pretending, we don't care  
Bangin' heads everywhere

Never ending hate

Try to push us off the way  
Here and now is the time to slay -  
The lowest form of human life  
Are fashion wimps with lying eyes  
With crushing power from within  
Every battle we shall win  
Man of clay say goodbye  
We're unleashed step aside!

Never ending hate
