

# Unleashed, We'll Come For You

Demons gather slowly around this city of hell  
The zombies are dancing in the moonlight  
A feast for all you sinners of joy and blasphemy  
The evil armies attack to night

We'll come for you  
We'll come for you  
We'll come for you  
Ain't nothing you can do

A morbid angel signs with demented voice  
The orchs are pounding the drums of doom and night  
Men and ghouls with blackened eyes and faces deranged  
The evil armies attack to night

We'll come for you  
We'll come for you  
We'll come for you  
Ain't nothing you can do  
We'll come for you  
We'll come for you  
We'll come for you  
Ain't nothing you can do
