

# Unwritten Law, I Like The Way

I got a cocaine woman and she's cooking up a pound of pills  
Another ride to the station and you know I'm gonna pay the bills  
I gotta go see my baby  
gotta run run run  
The only girl I loved  
it'll be the last one  
I know I know

She's hell on wheels  
I know how she feels boy

[Chorus]  
I like the way that she moves when she moves me  
I like the way that she feels when she feels me  
She don't complain when I say that I'm leavin'  
I'm in love

I got a cyclone woman she's cookin' up a pound of thrills  
Another night she's away couldn't take 'cause you know it kills  
I missed her for six days  
I can't wait to see that fine lookin' woman motherfuckin' lying next to me  
She's hell on wheels  
I know how she feels boy

[Chorus]  
I spent a lifetime finding you  
oh my love  
and I'd die a thousand times for you, my love

Yeah gotta run run run  
ooh, she'll be the last one  
I know I know
