

Unwritten Law, Rejection's Cold

You know you talk and talk my friend
And all good things come to an end
And this has been a long time comin'
It's too late to make amends
You choke on every word you said
And now it's time boy

Choke

Rejection's cold
You know I told you so
Maybe your less evolved boy
The problem solved
Rejection's cold
You know I told you so
Maybe your less evolved boy
The problem solved

And I confess the lessons learned
And now we've seen the tables turned
Forgiving in isn't even an option
And I hate to play pretend
Nothing for me to defend
On your way boy
(ya)

Rejection's cold
You know I told you so
Maybe your less evolved boy
The problems solved
Rejection's cold
you know I told you so
Maybe your less evolved boy
The problems solved

(The problem solved)
(No problem)
