

# Unwritten Law, Underground

Won't you come to the other side  
A via satellite  
With me my darling  
Let me help you through the suffering  
I know you're hurt again  
So trust in me now  
Stop...  
Breathe...  
Look inside of me  
Tell me what do you see  
Relate  
But do not hesitate  
To come with me tonight  
Won't you come to the other side  
Follow me down  
Won't you come to the underground  
So I can save your soul  
Cause it's part of you  
And it's part of me  
Synchronicity  
I'm only here to help you through the pain  
And make it go away  
Oh sincerely no  
Stop...  
Breathe...  
Look inside of me  
Tell me what do you see  
Relate  
But do not hesitate  
To come with me tonight  
Won't you come to the other side  
Follow me down  
Won't you come to the underground  
So I can save your soul  
Follow me down  
To the underground
