

Urge, Closer

Not too much I have to steal
Bringing my best with me nothing to conceal
Thought of the renovation
Make sure that I'm showing my appreciation
Futures wide open
Wide open
Wide open

She brings me
a little bit closer
a little bit closer to heaven
She brings me
a little bit closer
a little bit closer to heaven

Not much left to be revealed
She made this poor man rich
The freshness that she gives
This is something new
Wish you'd feel the same way too
Futures wide open
Wide open
Wide open

She brings me
a little bit closer
a little bit closer to heaven
She brings me
a little bit closer
a little bit closer to heaven

Whoa, whoa, whoa, whoa

If you feel the same way too

Not too much I have to steal
Bringing my best with me nothing to conceal
Thought of the renovation
Make sure that I'm showing my appreciation
Futures wide open

She brings me
a little bit closer
a little bit closer to heaven
She brings me
a little bit closer
a little bit closer to heaven
She brings me
She brings me
She brings me
She brings me
a little bit closer
