

Urge Overkill, Take Me

I just don't really need it
Like I don't need you
Yes I don't really need it
And be mean to you

not long for this life
not long for this world
wooooahh t-t-take me
take me back again
I'm not your college boyfriend
I ain't your lover too
I'm happy when I ignore that
'Cause I've been playin' the fool
You can say when the song is over, its over
not long for this life
not long for this world
wooooahh t-t-take me
take me back again
I just don't really need it
Like I don't need you
Yes I don't really need it
Like I've been needing you
you can't sing when the song is over, its over
not long for this life
not long for this world
wooooahh t-t-take me goddammit
take me back again
not long for this life
not long for this world
wooooahh t-t-take me
take me back again
take me back again
take me back again
