Uriah Heep, Bird Of Prey

(Box/Byron/Newton)

I can see that look that says beware Try to move in closer if you dare So I must sit and play my waiting game And for a while I know she'll do the same Fly away

Watches like an eagle from its eerie Then like a bird of prey she captures me But I am older and more wise than you Bird of prey straight into me you flew Fly away

Now every time I've tried to set her free I'm glad to say she comes right back to me But if I knew she didn't want to stay I wouldn't try to keep that lovely bird of prey
