

Urma, This Time

This time I'm chasing my own dreams to catch...

This time I'm racing only for myself

This time I'm chasing my own golden fish, today I'm racing only with myself

Break me down... cause I won't stay

Tide me down.. cause I won't stay

Today I'm chasing my own better days...

This time your tears are out of picture...

Today I'll catch my golden fish again

Today I'm racing only for myself

Break me down.. cause I won't stay

Tide me down, cause I won't stay

It's time to be myself

Break me down... hold me down..

But let me go my way

Hold me yours... keep me yours

Just let me fly away...

Cause I don't want to stay

Break me down... cause I won't stay

Tide me down.. cause I won't stay

It's time to be myself
