

# Used Cars, Drivin' Away

(N. Bottini)

I came along and talked to you  
You had little time to choose  
A kiss in the rain, in the corner light  
It kept on raining all the night

I've been a fool, still I don't know why  
It couldn't have been nothing but one more night  
You were so fine, girl, when you said goodbye  
You sent me away with your sweetest smile

CHORUS:

Drivin' away, out of your town  
I've got on my back the light of the sun goin' down  
Mile after mile watchin' the counter turnin' 'round

Night has gone, I came home at six  
Just one more thing before I could sleep  
I took my guitar, and I thought 'bout you  
That was all that I could do

CHORUS
