

# Usher, Can U Get Wit It

Every time I look at u  
There's so many thing that I want to do  
I promise u when I'm ready  
I'm gonna spend my whole life with u  
What is love is it steady  
Cause I don't know what to do  
Tell me girl if you're ready  
To do what we came to do  
One day we could be together  
Cause u know that I wanna be down, baby  
But right now we can all forget it  
U know I gots to get around  
I don't have much money, I can't buy a diamond ring  
I'm not tryin' to be funny, but it's only a sexual thing  
Can u get wit it  
It's like that  
It's only a sexual thing  
Can u get wit it  
It's like that  
You're gonna love the joy I bring  
Please forgive me cause I don't ever want rush u  
I might sound a little hasty  
But let's do what we came to do  
U know that time is really precious  
And u wasted a lot of mine  
I'm gonna have 2 keep on movin'  
If you can't make up your mind  
One day we could be together  
Cause u know that I wanna be down  
But right now we can all forget it  
Cause u know I gots to get around
