Love at first sight was something

I had thought that was impossible Baby then you came to me Loving only one person I had thought that was impossible Baby then you changed my mind

Such a lucky meeting I'm sure will never come again Was it chance, or fate? Isn't it fine either way?

No matter what happens
No matter what happens
I won't regret it
Take me with you
As far as you can go
As far as you can go
Forever, just like Bonnie and Clyde

If I'm with you
I can be my natural self
Maybe you're the one for me
The people who make fun of us are probably
Just lonely
Even I was like that

If I put my feelings into words The magic would be lost Until this moment ends Don't say a thing

Just a bit longer
Just a bit longer
I want to forget
Keep on driving
Even if you hurt someone
Even if you're hurt
Forever, just like Bonnie and Clyde

Don't make any promises It's better without any guarantees for the future We've no choice but to take a chance Come on and try me

No matter what happens
No matter what happens
I won't regret it
Take me with you
As far as you can go
As far as you can go
Forever, just like Bonnie and Clyde
