This turquoise blue night
is here just for the two of us

Don't bother analysing it
Just enjoy the art of life

Mister DJ, the mood of this song is great
Raise it up, raise it even further up
Sexy lady with the backless dress,
It suits you well you're Number One ya know!

Celebrate, shower in the light
If you dive into the green ocean, you'll be able to become anything
Celebrate, open the Dom Perignon
When even your lungs turn gold, you'll feel like a Queen

The monster with kind eyes awakens

Mister DJ, the mood of this song is great
Raise it up, raise it even further up
Sexy lady with the backless dress,
It suits you well you're Number One ya know!

Celebrate, on a hill where we can see the moon,
Tonight, let us take an oath together, our secret wedding
Celebrate, hey, come here
Because I know of the times when you cried by yourself

Stop the clock

Celebrate, shower in the light
If you dive into the green ocean, you'll be able to become anything
Celebrate, open the Dom Perignon
When even your lungs turn gold, you'll feel like a Queen

Ah I love the way
You make me feel the music
Ah it's weird eh, we're not touching it yet we can feel it
