

Utada, Prisoner of Love

I'm a prisoner of love,
Prisoner of love
Just a prisoner of love
I'm just a prisoner of love,
A prisoner of love

I'm just a prisoner of love
Just a prisoner of love

I'm gonna tell you the truth

I'm just a prisoner of love
Just a prisoner of love

Oh
Don't you give up
Oh

I'm just a prisoner of love
Just a prisoner of love

I'm just a prisoner of love
Just a prisoner of love

I'm a prisoner of love
Prisoner of love
Prisoner of love
I'm just a prisoner of love
I'm a prisoner of love

Stay with me, stay with me
My baby, say you love me
Stay with me, stay with me

<lyrics>
I'm a prisoner of love,
Prisoner of love
Just a prisoner of love
I'm just a prisoner of love,
A prisoner of love

Lying with an calm face,
I smile, tired of this
I was just trying to be at ease

It's a "Crying For The Moon Blues"
Everybody searches for their own peace,
they still struggle despite being content,
and following for shadow of "LOVE";

Boring days suddenly started to shine
since the day you appeared in my life
I'm alright despite the loneliness and pain
I'm just a prisoner of love
I'm a prisoner of love

In hard times and good times
Through stormy days and clear days, let's walk together

I'm gonna tell you the truth
I secretly choose the hard path
You encourage me,
So I call only you "my friend";

Bluffing or greed now mean nothing
since the day I was loved by you
Freedom and leisure are meaningless if I am alone
I'm just a prisoner of love
Just a prisoner of love

Oh just a little more
Don't you give up
Oh I won't ever abandon you

If cruel reality tears us apart
then we both each become stronger
I naturally felt I can do more and more
I'm just a prisoner of love
Just a prisoner of love

Normal days suddenly started to shine
since the day I fell in love with you
I'm alright despite the loneliness and pain
I'm just a prisoner of love
Just a prisoner of love

I'm a prisoner of love
Prisoner of love
Prisoner of love
I'm just a prisoner of love
I'm a prisoner of love

Stay with me, stay with me
My baby, say you love me
Stay with me, stay with me
Don't leave me alone
