Vader, Insomnia

[Lyrics: Pawel Frelik]

This is my love song
My great and secret show
My pornographic confession
Emblems of the season of fury
Flash and wobble and jar

I toss and scream I shake and yell I weep and curse Like a madman I can't sleep

I strip myself naked of my words I lay them bare for all of you to see More whimper then fury For the world to listen, watch and laugh

I toss and scream...

I mumble the words I do not understand Figures appear at go at no will

I toss and scream...

I'm still in control of my mind

[Lead: Mauser]

So many voices In my head None of them can replace yours

I toss and scream...

Fever drums the war song in my brain Perfect memory of time and place is a curse Savage god raises his hand In the fields of rape in my head
