

# Vader, Total desaster

I was born in a dark winter night  
Thunder and lightning greeted me  
Now it's time to begin to fight  
Kingdom of heaven; I can't see...  
My home is the bloody Hell  
The place where Satan rules  
The world is now like a big shell  
The fire of hell will destruct you fools  
I can never trust the virgin preacher  
I don't believe in Jesus Christ  
It's all right cuz' Satan is my teacher  
Hidden them when we arise  
I command and you get down on your knees  
We sacrifice infancy on Satan's order  
Come taste blood, our living grease  
Headless bodies found, one is your daughter...
