

Vader, What Colour Is Your Blood

Warlust !!!
Screaming out all pain
Mercy died
It's gone forever

Fear is not my ally
Total attack !!!!
I am conqueror
I spill blood

Hell's child
Is the name you know
And i always raise my sword
Against the liars

In fury
Now i'm asking you-
What colour is your blood?

You love to take
Like parasite of life
Now i will take you down
To the land of endless cry?

Feel the touch of grace
Your last emotions
Welcome at the gates of hell !!!

I hear the puls
In your veins
The eyes are growing bigger
When you smell the steel of blade

Like razors cut
I open your heart
Crimson fluid is dancing
And life is running out

Hell's child
Is the name you know
And i always raise my sword
Against the liars

In fury
Now i'm asking you-
What colour is your blood?
What colour is your blood?
What colour is your blood?
