

Vain, Icy

Somehow Icy went astray
Bars are cold but she's a hard girl
Don't you know don't you know that
Don't you know don't you know that
Icy went so far away
A red light blue light
She's a hard girl
Don't you know don't you know that
Don't you know don't you know that

Icy she's going to heaven
Icy she's been through hell
Icy will they find you
Is it true what the people say

Icy's gone she ain't coming back
She lives alone behind the wall of black
Icy's gone she ain't coming back
A tough girl who ran off the track
Icy

Somehow Icy went astray
Bars are cold but she's a hard girl
Don't you know don't you know that
Don't you know don't you know that

Icy she's going to heaven
Icy she's been through hell
Icy now I believe you
Is it true what the people say

(chorus)
Icy's gone she ain't coming back
She lives alone behind the wall of black
Icy's gone she ain't coming back
A tough girl who ran off the track
Icy's gone she ain't coming back
She lives alone behind the wall of black
Icy's gone she ain't coming back
A tough girl who ran off the track

Don't you know don't you know that
Don't you know don't you know that
Don't you know don't you know that
Don't you know that I'll find you Icy

(chorus)
