

# Vain, Ready

No education won't go to school  
All the boy knows is guitar and acting cool  
You know they're trying to be cool  
Hanging on the teens everybody knows  
Everybody says but you never never go  
You just leave it alone just leave it alone

You know I'm tired of being a small town boy  
I wanna go where there's lights and make some noise

(chorus)  
I've a feeling that I'm ready for you  
Are you ready for me  
I've a feeling that I'm ready for you  
Are you ready for me

Shoot it I want you to shoot it

Pull my trigger let the rocks fly  
Everybody knows that you've got to do it or die  
So I gave it a try  
Vanity kills along with the road  
Come on baby help mr loosen my load

You know I'm tired of being a small town boy  
I wanna go where there's lights and make some noise

(chorus)

Then shoot it I want you to shoot it  
Shoot it I want you to shoot it  
Let's shoot it boys

(chorus repeat out)
