

Vain, Ready

No education won't go to school
All the boy knows is guitar and acting cool
You know they're trying to be cool
Hanging on the teens everybody knows
Everybody says but you never never go
You just leave it alone just leave it alone

You know I'm tired of being a small town boy
I wanna go where there's lights and make some noise

(chorus)
I've a feeling that I'm ready for you
Are you ready for me
I've a feeling that I'm ready for you
Are you ready for me

Shoot it I want you to shoot it

Pull my trigger let the rocks fly
Everybody knows that you've got to do it or die
So I gave it a try
Vanity kills along with the road
Come on baby help mr loosen my load

You know I'm tired of being a small town boy
I wanna go where there's lights and make some noise

(chorus)

Then shoot it I want you to shoot it
Shoot it I want you to shoot it
Let's shoot it boys

(chorus repeat out)
