Valentine, Angel Of My Heart

Life - when will it bring This memory back in time When will it bring me back The love of my life Can I ever solve The mystery in my heart Will I ever find out who you are Ooh I'm still trying

Love - will I always hold on To this love Even when the pain gets too tough No there's no one In the world like you No there's nothing I don't do for you - wooh Only for you - only for you

Wooh angel of my heart You don't know You still tear me apart Wooh angel of my heart I still love you

Time - never gave me any chance For peace of mind Never made me leave The heartache behind Now it's all so grey and blue Can't you see I'd die for you Wooh - only for you - only for you

Wooh angel of my heart You don't know You still tear me apart Wooh angel of my heart I still love you Oh I still love I'm still in love with you

Can't you see What she's doing to you Yeah - but my love still remains Wooh - don't you see Where it's leading you to But without her it is never the same Never be the same

[chorus]

Wooh - wooh - loving you I still believe in the things you do I'm still in love with you
