

Van Morrison, Steal My Heart Away

(Van Morrison)

I can hear the sound of violins
I can hear the piper play
And every time the song begins
You just steal my heart away

The journey's longer than
I thought my love
There's lots of things
Get in the way
But every time I think of you
You just steal my heart away

Just like a morning
In May like this
See the heather on the hill
There's a place way up
The mountainside
Where the world
Keeps standing still

Just like the sunshine after rain
I'll come
To be with you will save the day
'Cos I know
When I'm with you again
You just steal my heart away

Just like a morning
In May like this
We see the heather on the hill
There's a place up on
The mountainside
Where the world is
Standing still

Just like the sunshine after rain I'll come
To be with you will save the day 'cos I know
When I'm with you again
You just steal my heart away

'Cos I know
When I m with you again
You just steal my heart away

'Cos I know
When I'm with you again
You just steal my heart away

'Cos I know
When I'm with you again
You just steal my heart away
