

Vancouver Sleep Clinic, Love You Like I Do

Heard there's a trouble coming
But there ain't a mountain we can't move
Let hell and his friends come gunning
Cause in the end, no-one can love you like I do

And the world had me bound
Hanging under a cloud
But with you, there's not a shadow of doubt

Cause after all
Who could love you like I do?
And after all
Of the storms we made it through
The sky could fall
And I'd be powerless to move
Cause I know when I'm with you
Who could love you like I do?

Heard that the wolves are running
There ain't a chase that we can't lose
Let all heaven & earth powers of earth start thundering rumbling
Cause in the end, we're on another magnitude

And the world had me bound
Hanging under a cloud
But with you, my heart's a mile off the ground

Cause after all
Who could love you like I do?
And after all
Of the storms we made it through
The sky could fall
And I'd be powerless to move
Cause I know when I'm with you
Who could love you like I do?
