

Vanessa-Mae, Embrasse Moi (You Fly Me Up)

Embrace me
Gratify all my senses
As the night approaches
Then my life begins
Embrace me
Very close in your arms
Love overcomes me
Like a wild wave

There's nothing like this
Under the Covers
There's nothing like this
You take me over

CHORUS

You fly me up, so close to heaven
You fly me up, your're the only one
You fly me up, your're the only one
 Embrace me
Muffle all sounds
With a whisper
Yes, you drive me crazy
Embrace me
I see the stars
Take me away
To paradise

There's nothing like this
Under the Covers
There's nothing like this
You take me over

REPEAT CHORUS

 You make me shiver
You make me leave
So close to heaven
You are the only one
Yes
You are the only one I love

There's nothing like this
Under the covers

REPEAT CHORUS

You fly me up, so close to heaven
You fly me up, you're the only one

You fly me up, you're the only one
You fly me up, you're the only one
You fly me up, you're the only one
