

Vanessa Williams, (He's Got) The Look

Oh gotta know him better
He's got the look baby
I want to know
He's got the look baby
Just got to know

One sleepless night, no air inside
Went out to have some fun, rock to morning light
To my surprise he caught my eye
My heart skipped a beat, what's happenin' to me

He's got the look baby
I want to know
So fine, woah, almost a crime
He's got the look baby
Just got to know
In time I'm gonna make him mine

He came to me, said do you like what you see
No time to actin' childish, gotta hold him near
His classy style, that sexy smile
That then and there I knew he was the one for me

Night dancin', romancin'
Baby, sweet love in your eyes
Together oh forever
That's how it will be

[Chorus:]
He's got the look baby I want to know
Oh yeah I like what he's got
He's got the look baby I want to know

My heart skips a beet baby
I like what I see
He's got it
Come on baby, baby

Night dancin', romancin'
Baby, sweet love in your eyes
Together oh forever
That's how it will be

[Chorus]
