

Vanessa Williams, One Reason

We had each other
And we never knew how much we had
Hurt one another
'till we took the good and turned it bad

But now we're so much wiser
And we both know score
Can we try just once more

Oh baby give me one reason
Why we shouldn't fall in love again
Oh baby give me one reason
Why we couldn't give our all again
If you miss me like I miss you
Oh baby give me one reason
Why we shouldn't fall in love again

Let's make it better
Now that we can see where we went wrong
Get back together
In each other's arms we belong

Let's put the past behind us
We've both had time to heal
So if you feel like I feel

Oh baby give me one reason
Why we shouldn't fall in love again
Oh baby give me one reason
Why we couldn't give our all again
If you miss me like I miss you
Oh baby give me one reason
Why we shouldn't fall in love again

If you need me like I need you
Oh baby that's the one reason
Why we ought to fall in love again

Oh baby give me one reason
Why we shouldn't fall in love again
Oh baby give me one reason
Why we couldn't give our all again
If you miss me like I miss you
Oh baby give me one reason
Why we shouldn't fall in love again
