

# Vanessa Williams, Star Bright

Star Bright, first star I see tonight  
Could you oh would you please shine your light  
Shine it so I can see, my savior smilin' at me

Star Bright, I hear you once proclaimed  
This is the way, keep on followin' me  
And at the end of the road will be, a baby

And there, in him you'll find, a love that is truly blind  
Given so from your heart that love that light, could shine

Shine, shine, shine, Shine

Star Bright, first star they saw that night  
I am aware that this love is for me  
And the greatest of gifts is free  
Yet my heart of hearts is heavy

Star Bright, if I give you my hand  
Could you oh would you please see me through  
I would love to take my heart blue, and give it to you

And there, in my heart you'll find, a love that is truly blind  
Given to me, so that I could let my, light shine

Shine, shine, shine, Shine,

Star Bright  
Star Bright, Star Bright, Star Bright  
Star Bright, Star Bright  
Shine your light
