

# Vanilla Ninja, I Know

You stalk in - givin me a bad thrill  
You just look cool - and you're dressed to kill  
And I feel that you  
Think you're a big seducer

You come close - look into my eyes  
And I feel that you're livin in disguise  
It's so dead straight clear  
You are just a lucky loser

Oh well I know  
That you're gonna get blind  
When I'm through with you - all you gotta do  
Is to go away - I won't tell you no lie  
I know - you should keep it in mind  
You're not good enough - just not rough enough  
You are one big lie - you're a swanker that's why  
I know - that you're gonna get blind - ohh

You're so vain - but you feel so hip  
If you need results - baby here's my tip  
Get yourself someone  
Who's of the kind like you are

Of course I know - what you want me to do  
But you ain't no good - I'm too good for you  
Baby just get lost  
Ain't no place that's too far

(Chorus)

If you want you may dream of me  
But I'll never be your reality  
What you deserve -  
'Somebody undemanding

(Chorus)
