

Vanilla Ninja, Like A Rockstar

Stop terrorizing
Can't take this crap no more
Look Hun - I'm tired of that
Tattooed my name on your arm
But will it solve the problems,
Take this pain away?
Grab my favourite CDs, keys for my car
And then I kiss this place goodbye
You might have money and fame
That's not enough to keep me, I need something more...

Ref:
Like a rockstar
Chilling all night long
This music cures and makes me strong
Don't even dare to be standing on my way
Just sit back and wait for better day
Like a rockstar
Chilling all night long
This music cures and makes me strong
Don't even dare to be standing on my way

No more afraid of being lonely
Although my life still sometimes seems so cheap to me
That's how my feelings have died
But I'll get over this and soon I'll be OK.
