

VanVelzen, Deep

Whenever she's around, I feel my heart melt down
And I'm in deep, yeah I'm in deep love now baby
When she takes my hand, I'm under her command
And I'm in deep, yeah I'm in deep love now baby

Chorus:

And I just can't stop this feeling baby
I just can't let this feeling go

Cause when the moon is high
And the music plays
I lose myself, I'm a real bad case
And when she takes me to her secret room
I lose myself, so slap my face
I'm in deep

No matter how I try to keep the cool inside
I'm still in deep, I'm in deep love now
And there's no other way, I'm feeling lost and dazed
I'm in deep, I'm in deep love now, yeah

Chorus

Deep, deep, deep, I'm in deep love now baby

I'm in deep love now baby

Come on, come on, come on, come on
Come on, come on, come on, come on
Ooooh

Cause when the moon is high
And the music plays
I lose myself, I'm a real bad case
And when she takes me to her secret room
I lose myself, yeah

Cause when the moon is high
And the music plays
I lose myself, I'm a real bad case
I lose myself, so slap my face, slap my face
I'm in deep, deep, deep, deep
I'm in deep, I'm in deep love now,
I'm in deep, whohoo
I'm in deep love now baby
