

# Various, Some Fun Now

PANDORA

I'm gonna make you smile and shine I'm gonna take you high, you're mine  
I've been thinkin' so many times  
That I won't get another chance always lived like  
From day to day but with you  
Things could just advance  
'cause with you I find the situation  
Like there is no need for conversation  
I'm gonna take you high gonna make you shine on-yeah  
And now I move in your direction I'm gonna take you high  
Gonna make you mine oh-yeah and you're my big time satisfaction  
Newly found but you are the one  
Makes my heart beatin' way to fast and right now  
Couldn't care no less whether or not this is meant to last  
'cause with you I find the situation  
Like there is no need for conversation  
I'm gonna take you high...  
I'm gonna make you smile and shine I'm gonna take you high, you're mine
