

Varsity Fanclub, What I Really Want To Say

I say I don't care
But it makes me crazy when you're not there
I say I don't need you next to me
Say I don't need your touch
Say I don't need that much
Say this love don't mean a thing
Wha I really wanna say is you stay on my mind
And I die everytime, that you're not around me
What I really wanna show you is what's in my heart
But I stop when I start, keep it locked inside me
What I really wanna do is just scream it out loud
Get the message through
What I really wanna say is I love you
I say I can live without you
But my mind's all tied up in thoughts about you
I say I wont let you get to me, yeah, yeah, yeah
But everytime I'm with you
I get so caught up in you
Say this love aint what I need
Wha I really wanna say is you stay on my mind
And I die everytime, that you're not around me
What I really wanna show you is what's in my heart
But I stop when I start, keep it locked inside me
What I really wanna do is just scream it out loud
Get the message through
What I really wanna say is I love you
Why can't I say what I'm thinking
Why must I hide what I'm feeling
I'll tell you what I'm feeling now
Wha I really wanna say is you stay on my mind
And I die everytime, that you're not around me
What I really wanna show you is what's in my heart
But I stop when I start, keep it locked inside me
What I really wanna do is just scream it out loud
Get the message through
What I really wanna say
What I really wanna say
What I really wanna say now baby
What I really wanna do now baby, baby, baby, baby
What I really wanna show
What I really wanna say
What I really wanna do is just scream it out loud
Get the message through
What I really wanna say
What I really wanna say
