

Varsity Fanclub, When You Were Mine

When you were
When you were mine
When you were
When you were mine
When you were
When you were mine
Feeling me feeling me
(I had) everything I wanted
I was blind and I couldn't see
That it was the future that
Was standing right in front of me
Now you're looking at him
The way that you use to look at me
Now I realize.
When you were mine
I should've told you that you're beautiful
When you were mine
To never let you feel invisible
When you were mine
Try to be a player but I dropped the ball
If I could rewind back to the time
When you were mine
To never ever never let you go
When you were mine
