Vasaria, Corpse By Day

Corpse By Day

Spewed up from an unknown grave Foul and relentless enemy Non-existent through the day Lain in soil to fight the sun

Vindicator of the dead Immortal enshrined Infestation epidemic Prime directive in full force Corpse by day Sustain to me unnatural life Corpse by day Endless nights of diabolical hunger

The subhuman way of death Oozes from a monsters dream. A gruesome notoriety Desperation in its course Vindicator of the dead Immortal enshrined Infestation epidemic Prime directive in full force.

(Chorus)

By day a corpse, by blood a parasite Roaming, wanting, yearning scheming Days fade to nights as nights fade to doom ...endless doom

(Chorus)
