

VAST, Niles Edge

Every time that I cry out
No one ever comes to me
Every time that I reach out
No one ever rescues me
I wish I could hide from everyone
Is there somewhere else to be
Is there somewhere else to be
Take me in
I want out
That's all I need
I wish I could run from everything
Is there somewhere else to be
Is there somewhere else to be
Take me in
I want out
That's all I need
