

Vaya Con Dios, No One Can Make You Stay

The storm is getting closer
Till it's over talking louder ain't no use
Discussing from the morning till the evening
Leads you slowly to abuse

Some words are meant to hurt
And cut you deeper than will ever cut the truth
So don't say don't say
I never cared for you
No don't say don't say
I'm disrespecting you
Don't say that you are chained

'Cos you can always go away
No one can make you stay
Just walk away
Don't wanna see you tamed
But I can say
I've loved you all the way
Until this day

Gotta get it over
'Cos I can't take it no more

Our love is getting colder
And your shoulder ain't no longer my refuge
The cards are out of order
Every border has been crossed without excuse
These wars are fought for nothing
Can't you see that I am pleading for a truce
So don't say don't say
I never cared for you
Oh don't say don't say
I'm disrespecting you
Don't say that you are chained
