Vega 4, Hallelujah

When the show is over and all is said and done when the picture turns to static the station has closed hallelujah, hallelujah it was all worthwhile, oh love hallelujah, hallelujah i had the time of my life

when the final scene has faded on my starring role i'll be thinking of you the song will play on

hallelujah, hallelujah it was all worthwhile, oh love hallelujah, hallelujah i had the time of my life

hallelujah, hallelujah it was all worthwhile hallelujah, hallelujah i had the time of my life

i can see the world from here
