

# Veil Of Sorrow, The Dark Within

Bleak morning light  
Upon fields of ruin  
No escape from the pain inside  
A silent cry  
That no one hears  
Crushed 'neath the shadows of a burden vast

There's no escape  
Nowhere to turn  
The water dark  
Will swallow you

Away from all  
A distant dream  
Too late to hold on anymore  
Behind closed eyes  
The fire dies  
Endless torment held by silent walls

The rays of light  
Cannot shield you  
From the dark within  
Scars run deep  
No time can heal  
What has been torn

We grasp for hope  
Awakening from this nightveiled existence  
That we might find peace

And the will to carry on
