

Velvet Acid Christ, Futile (Nazi Bastard)

Assimilate the night

They cut into your brain

They crack apart the skull

And stick the wires in

The computer relationship

A flame into the flesh

A cut into the brain

A cut runs in your face

You can't believe your head

You can't believe your eyes

Nobody can escape

The futile assesment

The futile assesment

Oh, futile

We're futile

Futile

You're futile

Futile religion

Futile expression

Your futile aggression

A futile obsession

Oh, futile assasination

You'll falter

Your generation

Your immoral futile assimilation

Expressionation

Annihilation
