

Velvet Acid Christ, Serial Killer 101

four tears in my eyes
acid eats through my skin
we broke away the time
just to live a life of sin

so give in, so give in
so give in, give in

my mind is broken
my mind is broken
your mind is broken
your time is broken

it's all wire you're down to one
you're dead

you give me the answer, so simple
it's here in your dream
pull out your eyes, pull out your mind
pull at your head, watch it die again
again, again, again, again

so pretty, so pretty, pretty
so feel my fist

shoot the force, shit it down
time for play is coming down
see your face, say your prayers
then a pain, you're falling dead

then i go into your eyes
it's your fucking religion
look so far, you don't say
you know what the fuck you don't play

shut the fuck up
shut the fuck up, i said
shut the fuck up, i said
shut the fuck up, i said

so kill, in this room
you close your eyes
and then pretend, that you're dead
to make all the pain go away
to make all your pain go away
make it disappear, make it disappear

i push the nail against your head
make it better, make it bleed
turn around kill me
oh go ahead whack my head off

you know the rules, so finish me off
you killed me ten times before

you shouldn't let this stop you
you shouldn't let this stop you
you shouldn't let this stop you
you shouldn't let this stop you
just go ahead and finish me off

i want me dead
you want me dead
so kill me
