

# Velvet Belly, Easy

music : Velvet Belly  
lyrics : Anne-Marie Almedal

If it only was that easy  
If it only was that easy

If you wanna live long, be strong  
And make sure you love someone  
Simple words on the radio this morning

Don't live too much  
Don't live too little  
Just make sure that you love the life you live

If it only was that easy  
I would surely try it out  
If it only was that easy  
Who would ever worry about his life

We couldn't choose who to be  
And there's a difference between you and me

I live too much  
Sometimes too little  
I'm just happy I have a life to live

If it only was that easy  
I would surely try it out  
If it only was that easy  
Who would ever worry about his life

If it only was that easy  
I would surely try it out

Don't live too much  
Don't live too little  
Just make sure that you love the life you live

If it only was that easy  
I would surely try it out  
If it only was that easy  
Who would ever worry about his life

If it only was that easy  
I would surely try it out
